

Value in Diagnostic Imaging: Compare the SCORE Before You Choose

At CDI, we have been leaders in patient-centered care for decades.

Our physicians and leaders have advocated for years for better information in the community related to cost and quality in health care.

This guide is meant to give you basic information with which to compare CDI to other providers of diagnostic imaging and pain management services.

**Use these simple questions
when comparing
value (quality + cost)
of providers
of medical imaging and
pain management procedures.**

**It's as easy as comparing the
SCORE!**
